Federal Communications Commission
Washington DC**

In the Matter of)	
)	
Nuclear Energy Institute and)	
United Telecom Council Request for)	ET Docket No. 05-345
Waiver of Section 74.832(h) of the)	
Commission's Rules)	

**REPLY COMMENTS OF EXELON GENERATION COMPANY, LLC,
IN SUPPORT OF REQUEST FOR WAIVER**

Exelon Generation Company, LLC, (“ExGen”) submits these reply comments in support of the request of the Nuclear Energy Institute (“NEI”) and the United Telecom Council (“UTC”) for waiver of section 74.832(h) of the Commission’s rules to permit the use of certain Telex wireless intercom and headset equipment on site a nuclear generating facilities.

ExGen filed comments earlier in this proceeding and now fully supports the reply comments filed by NEI and UTC. As they note in those reply comments, the request at issue is a modest one. It does not seek full parity with primary licensees, but only authority to continue current limited use of equipment that has proven valuable in operations critical to the safe operation of this country’s nuclear power plants. This is not an attempt to game the Commission’s rules for a trivial purpose. Those who oppose the

request come very late to this issue and cannot point to any interference of primary licensees that has been caused by the limited use in question.

For all these reasons, ExGen respectfully requests that the Commission grant the waiver requested by NEI and UTC.

Respectfully submitted,
Exelon Generation Company, LLC
